EDUCATION

Chitkara University	2026
<i>B.E., Computer Science Engineering / CGPA: 8.77</i>	<i>Punjab, India</i>
Govt. Girls Senior Secondary School	2022
<i>Higher Secondary Education / 91.6%</i>	<i>Punjab, India</i>

TRAINING EXPERIENCE

Capgemini — Java Full Stack Training Program	Jan 2026 – May 2026
---	---------------------

- Completed structured training in Core Java, OOP, Spring Boot, and REST API development.
- Built backend applications with Spring Boot and MySQL using a layered (controller-service-repository) architecture.
- Applied API development, dependency injection, and layered-architecture concepts across hands-on tasks.
- Delivered hands-on assignments and mini-projects covering full-stack development.

TECHNICAL SKILLS

Languages & Databases: Java, Python, JavaScript, HTML/CSS, SQL

Frameworks & Libraries: Spring Boot, React.js, Node.js, Express.js, Tailwind CSS

Tools & Platforms: Git, GitHub, Postman, Docker, Maven

Concepts: DSA, OOP, DBMS, REST API Design, MVC Architecture

PROJECTS

Hospital Management System (HMS) — Team Project

Spring Boot · Spring MVC · Spring Data JPA · MySQL · Git

- Developed a web-based hospital management application using Spring Boot and MVC architecture.
- Built REST APIs for CRUD operations on patient, doctor, and appointment records.
- Used Spring Data JPA and MySQL for efficient database operations and data management.
- Implemented entity relationships between patients, doctors, and appointments for seamless data handling.
- Collaborated with team members using Git for version control and project development.

StudyNotion — Full-Stack EdTech Learning Platform

React · Redux Toolkit · Tailwind CSS · Node.js · Express.js · MongoDB · JWT · Razorpay

- Developed a full-stack EdTech platform for course discovery, enrollment, and learner progress tracking.
- Implemented JWT-based authentication with role-based access for Students, Instructors, and Admins.
- Built instructor features to create, edit, and manage course content.
- Integrated Razorpay for online payments and maintained purchase history for enrolled courses.
- Designed REST APIs for managing users, courses, enrollments, and application data.

Face Detection Recognition System

Python · OpenCV · YOLOv5 · ArcFace · PyTorch · ONNXRuntime

- Developed a real-time face detection and recognition system using deep learning techniques.
- Implemented YOLOv5 for face detection and ArcFace for accurate face recognition.
- Enabled webcam-based recognition with real-time face detection and identity prediction.
- Used PyTorch and ONNXRuntime to efficiently run the deep learning models.

ACHIEVEMENTS & CERTIFICATIONS

- Solved 100+ Data Structures & Algorithms problems on LeetCode.
- Capgemini Java Full Stack Training — Certificate of Completion (2026).
- Led and coordinated technical and cultural events as Treasurer of ISTE and Panache Club.
- Represented school at State-Level Yoga Competitions, demonstrating discipline and perseverance.
